

The Church Building Fellowship

A church is more than a building: Many of us take for granted the large, often well maintained church buildings we see as part of the architecture in our cities, towns and villages. There are however many congregations in the developing world who are worshipping out of doors or in buildings which are incapable of keeping out the rains. Some congregations are paying unscrupulous landlords heavy rents only to be thrown out when they cannot pay what is required. The Church Building Fellowship designed to help such congregations to provide a suitable home for the people and a place for those who seek God to meet.

A mountain top experience:

To build a church in the developing world can be achieved for as little as £5000, the congregation gets together and 'pools' their skills and sets about the task. The picture (right) shows a church being constructed on a mountain top in Burundi with panoramic views all around, with your help churches can provide an appropriate place of worship and a centre for the community to meet and hear the 'Good News'! Please consider supporting the church in the developing world as they in turn serve God.

Please find my donation for 'The Church Building Fellowship' enclosed.
