Nakazibwe Mable has been confined to a wheelchair for 18 years, often not even having the strength to hold a pen or attend her primary and secondary level classes. Recently it was discovered that Mable has a rare disease which can be treated by taking daily medicine. I met Mable when I was in the town of Gaba in July 2006, at that time she was wheelchair bound and suffered regular spasms and seizures. Today her life has been transformed due to the discovery that her condition is able to be treated. She now is attending college and is able to walk and perform as well as her fellow students.

Mable is truly a special young lady, even in her difficult situation and in constant pain and discomfort she was able to provide her friends and any visitors with the broadest of smiles and displayed an inner joy which would be the envy of many. Her daily medicine costs £30 per month, she and her family cannot afford to pay this money and so to be able to remain mobile and free she needs our help, if you would like to join us in supporting this 'treasure' then please complete the support form below.

Courage in misfortune

Mable has show that she is one of the world's special people by continuing to maintain a bright and positive attitude in the midst of what can only be described as tragic circumstances. Her tenacious approach to life and to her difficult circumstances has meant that she has been able to break out of her place of difficulty to become an inspiration to her family friends and to anyone who meets her.

If you would like to help Mable remain in her current active condition then please contribute to her support either by providing a one off gift or by supporting her monthly in order that she can continue with her studies and family life, releasing her potential to succeed now and in the future. Please complete and return the attached form.
