## Seeds & Tools Project

**The Global Sponsor Seeds & Tools Project** is designed to provide some of the necessary basic components required to help a poor family rebuild and get back on their feet again. For many the ravages of war, disease, tragedy and natural disaster have left them destitute and helpless. With the provision of some of the basics to begin their lives again these families can begin to rebuild and look forward to a sustainable future. With your help the much needed seeds and tools can be purchased locally helping a family start again as well as supporting the local economy which benefits the wider community as well. Seeds which are locally sourced and resistant to local pests and diseases and are part of the local staple diet provide for a balanced and healthy diet for the whole family. Tools required for cultivation of land and crops as well as those needed to make bricks and construct a secure home are also necessary. To support this worthwhile project please complete and return the form below.

### **The benefits of supplying seeds & Tools:**

The benefits of supplying quality set up resources for a family are considerable. Seeds which are resistant to disease and drought can make sure a subsistence farming family are able to ensure the security of their crop during the long dry periods. In addition to this the provision of robust well made tools will ensure that land and crops are cultivated easily and properly making the target of a good harvest much more achievable. Widows are often left without someone to look after them and to cultivate their plot of land. The lack of seeds and tools for them can of course be fatal. Land clearing tools like a machete or cultivation tools such as a hoe along with some suitable seeds, make it possible even for such as those to provide a daily meal for themselves and their dependents. The poverty trap is locked so tightly for some that without your support they are destined for a very difficult decline. Your financial support however can change all of that and give them a future and a hope. Please complete the attached form and return it to us and we will make sure that someone benefits changing their life completely.

### **What does it cost?**

For £3.00 a month we can provide a family with the basic seeds and tools they need to get their lives on track once again. However any donation you can give large or small will be used to help poor families get back on their feet. Please complete and return the attached form with either a one-off donation or regular monthly giving and see lives wonderfully changed for the better in a sustainable way.
